For Mozaïk RH, this is a strong recognition of the group's HR expertise, its knowledge of the economic and social needs of the territories in which it operates and its unique and proactive positioning throughout the chain of economic inclusion: engagement of companies, identification of profiles, assessment of candidates, preparation of candidates, linking profiles / recruiters.----------

“After a successful first step of scaling up with the deployment of 5 branches that spread out over 12 departments, we wanted to start a second stage of development by passing on our know-how to other players who share the ambition of restore equal treatment in the recruitment process. By supporting this approach, the Ministry of the City and Housing will make it possible to initiate a national movement of local actors of economic inclusion.
